

WASH & CARE

NIKE TEAM APPAREL

**WASH & CARE INSTRUCTIONS FOR ATHLETIC UNIFORMS:
CARE INSTRUCTIONS ARE PERMANENTLY AFFIXED TO THE
INSIDE OF EACH GARMENT.**

Follow the recommended care as labeled in each garment. The special fibers used to achieve performance characteristics in some of Nike Team Uniform and Fundamental garments require COLD WATER WASH to avoid colorfastness issues.

SOME GARMENTS REQUIRE WASHING BEFORE WEARING.

See care instructions in each garment for specific recommended care.

DO NOT DRY CLEAN OR PRESS GARMENTS.

Dry cleaning and ironing can discolor athletic uniform fabrics and damage imprinting.

**UNIFORMS SHOULD BE LAUNDERED IMMEDIATELY
AFTER THEY HAVE BEEN WORN.**

Do not allow perspiration soaked garments to lay in a pile or rest on top of each other for any period of time. Garments that cannot be laundered immediately after wearing should be hung individually on plastic or wooden hangers.

FASTEN HOOK & LOOP TAPES:

Consumers must ensure that garments that contain hook and loop tape (i.e. Velcro® or similar) is closed on itself to avoid snagging garments in the wash.

**REMOVE BELTS & PADS FROM GARMENT
BEFORE LAUNDERING.**

Launder belts & pads separately from garments.

DO NOT SOAK NYLON OR SPANDEX GARMENTS.

**WASH WHITE GARMENTS SEPARATELY
FROM COLORED GARMENTS.**

DO NOT OVERLOAD MACHINE.

Make sure water level in machine is higher than garment level.

USE MILD POWDERED DETERGENT.

Detergents with pH under 10 are recommended for athletic uniforms. Powdered detergents are recommended for athletic colors.

**REMOVE GARMENTS FROM MACHINE
IMMEDIATELY AFTER WASHING.**

This will help avoid color bleeding, particularly on color blocked garments.

**DO NOT USE CHLORINE BLEACH...
DO NOT USE FABRIC SOFTENERS.**

Fabric softeners deteriorate garments with spandex. They also restrict the effectiveness of Dri-FIT technology and act as a magnet to dirt.

MACHINE DRY ON LOW OR "AIR DRY" SETTING.

Line Drying is recommended, particularly garments containing nylon and/or spandex. If machine drying, it is ok to use an anti-static agent.

BE SURE GARMENTS ARE COMPLETELY DRY BEFORE STORING.

Store in cool, dry place, away from direct sunlight & fluorescent light to prevent mildew or yellowing.

**COMMUNICATE THE ABOVE CARE INSTRUCTIONS TO ANY
OUTSIDE PARTIES THAT MAY HANDLE OR
LAUNDER YOUR UNIFORMS.**
